

Forest consolidation in Bavaria – a stakeholder theoretical analysis

Forest consolidation is seen as a solution instrument for the fragmentation of small private forests in Bavaria. The focus of this project: perspectives for the involved authorities, professionals, communities and forest owners. Furthermore, the establishment and development processes as well as the evaluation of the forest consolidations from the perspective of the involved stakeholders was qualitatively analyzed in three case studies

For forest consolidations the following actions are recommended:

If possible: increased implementation of the voluntary exchange of land

Use of successful examples in structural improvement activities as role models when new forest consolidations are initiated

Keep the duration of the procedure as short as possible

Intensive cooperation of the involved authorities

Planning and implementation of the forest consolidation adjusted to the situation and with special attention on key activities

Regarding the effect of forest consolidation on the mobilization of wood the following conclusions are drawn:

The effect of forest consolidation on the size of the property is only limited

Forest consolidation can help forest owners with strong forest owner motives to manage their forests how they want to and thereby increase the use of wood and intensify marketing activities

Relationships to the forestry communication network (becoming a member of forestry associations, getting advice from forest administration) are being

intensified or created

Forest administration and forestry associations need to get connected to forest owners and support them throughout the forest consolidation to create trust

DETALLES

ORIGEN DE LA MADERA

Bosque

TIPO DE MADERA

Madera en rollo

POTENCIAL DE MOVILIZACIÓN

1 – 2 m³/ha

POTENCIAL DE SOSTENIBILIDAD - VALOR

--

TIPO DE MADERA AFECTADA

Stemwood

FACILIDAD DE APLICACIÓN

Difficult as it is a complex process including many forest owners but also different authorities

IMPACTO EN EL MEDIO AMBIENTE Y LA BIODIVERSIDAD

Medium effect on biodiversity and forest resilience enhancement

FACILIDAD DE IMPLEMENTACIÓN - EVALUACIÓN

--

EFFECTO SOBRE LOS INGRESOS

more efficient working processes and higher harvesting amounts

PREREQUISITOS CLAVE

Forest owner data from the authorities

POTENCIAL DE EXPLOTACIÓN

--

TIPO DE EVENTO EN EL QUE SE HA PRESENTADO ESTA IFS

--

HUB

--

EFFECTO SOBRE EL EMPLEO

Better qualified staff through verification and discussion possibilities

IMPACTO ECONÓMICO

It will contribute to more efficient working processes

COSTES DE IMPLEMENTACIÓN (EURO - €)

--

CONOCIMIENTOS ESPECÍFICOS NECESARIOS

There is need for enhanced organizational but also administrative processes

MÁS DETALLES

RETO ABORDADO

--

PALABRAS CLAVE

--

PAÍS DE ORIGEN

Alemania

DOMINIO

Propiedad, cooperación

SOLUCIÓN DIGITAL

No

ESCALA DE APLICACIÓN

Local

TIPO DE SOLUCIÓN

--

INNOVACIÓN

No

AÑO DE INICIO Y FIN

2014 -
