

e-drewno.pl - Forest stock market

The screenshot shows the e-drewno.pl website interface. At the top, there is a navigation bar with the logo and the text "e-drewno.pl". Below the navigation bar, there is a search bar and a list of menu items: "Home", "Zmiana hasła", "Zaloguj", "Rejestracja", "Help", and "Czas / Płynność rynku". The main content area is divided into several sections. On the left, there is a sidebar with a tree structure showing different regions and forest districts. The main area contains a table with columns for "Region", "Nazwa", "Miejscowość", "Wielkość", "Cena", "Liczba ofert", "Czas", "Status", and "Wygrana". The table lists various forest districts and their corresponding auction data. The table is organized into four regions: Region 1, Region 2, Region 3, and Region 4. Each region contains a list of forest districts with their respective auction details.

Region	Nazwa	Miejscowość	Wielkość	Cena	Liczba ofert	Czas	Status	Wygrana
Region 1	1	1	1	1	1	1	1	1
Region 2	2	2	2	2	2	2	2	2
Region 3	3	3	3	3	3	3	3	3
Region 4	4	4	4	4	4	4	4	4

e-drewno.pl

A sales platform, enabling customers to take part in a wood sale auction in a forest district online.

e-drewno system was created to enable customers to take part in a wood sale auction in a forest district without necessity of physical attendance. Currently, about 20% of all wood sold to enterprises by State Forests in Poland is offered on auctions on e-drewno.pl. After registration in the system and providing forest district name the customer gets individual access, enabling participation in the auction. For practical reasons it is recommended to indicate the forest district which is located closest to the place of residence / running business activity. All the information exchanged online between the customer's computer and the server operating the auction is coded. When placing the offer it is registered and given position in the ranking, which depends on the proposed price. If the prices given are the same, the position is determined by an order of placing the offers registered by www.e-drewno.pl portal. During the auction each customer can place unlimited number of offers and modify earlier offers. Winning offers can be only modified to the following extent: wood weight, minimum wood weight, price (up only). In order to protect business data, participants in the auction cannot see the names of other companies taking part in the auction. The system is easy to use and administrate, includes a price calculator and offers access to reports.
