Forest Sharing

Forest Sharing (FS) aims to enhance the forest heritage through the creation of an innovative platform, able to facilitate the meeting between players in the forest sector, planning an ethical and sustainable forest management. This service is mainly proposed for abandoned or unmanaged ownships, re-launching integrated management in order to obtain an environmental and economic benefit, thanks to the use of innovative technological tools.

We made several public test in not "forest" conventional places, such as shopping center and exhibitions, and we met there forest owners that have decided to subscribe the application to enter in FS.
These tests were important to validate the service and the idea behind FS. It is necessary to organize a system that allows managing multiple properties together, and reducing the time spent by the owner, for each step of the supply chain.

The first results underline how people are interest in this new approach, especially those that have a forest proprieties that at the moment are not-manage. FS have start to create a networking between all the different actors in forest sectors. Forest Sharing platform have networking different owners and more than 1000 hectares of forests are in connection. Thanks to FS now forest owners are associate and in the last month they apply for founding. Some of the proprieties and forest managers had benefit from the application of technologies tools implemented by FS. Through the social networks FS have obtained a wide interest of owners, forest technician and forest companies working in logging and no logging activities.

ORIGINE DU BOIS

Travail de démolition

TYPE DE BOIS

Grume

TYPE DE BOIS CONCERNé

Steamwood, biomass

IMPACT SUR L'ENVIRONNEMENT ET LA BIODIVERSITé

High, due to the sustainability approach

EFFET SUR LE REVENU

the owners receive an income from a forgotten resource

POTENTIEL D'EXPLOITATION

--

HUB

--

IMPACT éCONOMIQUE

High, enhance underused heritage

CONNAISSANCES SPéCIFIQUES REQUISES

Share Economy

POTENTIEL DE MOBILISATION

120.000 cubic meters

POTENTIEL DE DURABILITé - VALEUR

--

FACILITé D'IMPLéMENTATION

Low, without the availability of the developing platform

FACILITé D'IMPLéMENTATION - ÉVALUATION

--

PRéREQUIS CLéS

Market and customer analysis

TYPE D'éVéNEMENT Où CETTE ICPE A éTé PRéSENTéE

--

EFFET SUR L'EMPLOI

Good, increase employs in the forest chain

COûTS D'IMPLéMENTATION (EURO - €)

--

PLUS DE DéTAILS

DéFI CONCERNé	DOMAINE	TYPE DE SOLUTION
--	Getsion forestière, sylviculture, services écosystémiques, résilience	--
MOTS-CLéS	**SOLUTION DIGITALE**	**INNOVATION**
--	Non	Non
PAYS D'ORIGINE	**ECHELLE D'APPLICATION**	**DéBUT ET FIN D'ANNéE**
Italie	Régionale/subnationale	2018 - 2018
