Wood is beautiful - Action plan for the forest-wood chain in Slovenia by 2020

AKCIJSKI NAČRT ZA POVEČANJE KONKURENČNOSTI GOZDNO-LESNE VERIGE V SLOVENIJI DO LETA 2020

»LES JE LEP«

Action plan “Wood is beautiful” is an operational document for increasing the competitiveness of the entire forest-wood value chain. The document defines wood as a strategic raw material of Slovenia, which has a lot of unexploited potential. The action plan sets out the objectives, measures, indicators and deadlines for intensifying forest management and for the revitalization and development of wood processing and the energy use of its residues. Due to the interdependence between all individual areas, all the measures foreseen should be implemented. This way the document can contribute to the competitiveness of the entire forest-wood chain, job creation and high added value in the Slovenian wood processing industry. Key objectives of the action plan are to create a market for timber products and services, to increase forest management and conservation in line with forest management plans, to increase the amount and processing of timber at higher levels of difficulty with new technologies, to create new jobs and growth in added value per employee in the wood processing industry. The action plan again places Slovene wood processing industry among strategically important and promising industries with a sufficient amount of domestic raw material.
