

# BioRES | Biomass trading centres calculation tool

## *Calculation tool for the establishment and operation of biomass trading centers*

Biomass Logistic and Trade Centres (BLTCs) are local or regional centres with optimised logistics and trading organization, where different woody bioenergy products (or heat) are marketed at standardised quality focusing on the domestic market uptake. It's an innovative business model competitively operating as an intermediary to organise local woody bioenergy value chains between local biomass suppliers and customers of different scale from private households up to deliveries to heat and power plants. BioRES supported setting-up such BLTCs in Bulgaria, Croatia and Serbia.

Starting point are web-based marketing and sales platform with limited physical infrastructure. This can be successively extended into a BLTC with its own production, storage and logistics facilities when the local market reaches critical volumes allowing for the amortization of investments. In Slovenia, Austria, Germany and Finland BLTCs of different shape with own production, storage and logistic facilities are competitively operating. BioRES aims to setting up at least 6 – 8 new BLTCs in distributed over at least 2 of the 3 countries in Croatia, Serbia and Bulgaria during the project.

## VIŠE DETALJA

---

### IZAZOV

5. Unaprjeđenje učinkovitosti lanca opskrbe šumom na gospodarstvo i okoliš

### KLJUČNE RIJEČI

biomass; logistics

### ZEMLJA PODRIJETLA

Austrija

### DOMENA

Sječa, infrastruktura, logistika  
Drvena energetska industrija

### DIGITALNO RJEŠENJE

Ne

### PODRUČJE PRIMJENE

Regionalno / podnacionalno

### VRSTA RJEŠENJA

Platforme za suradnju, logistički centri

### INOVACIJA

Da

### POČETAK I KRAJ GODINE

2015 - 2018

## KONTAKT PODATCI
