

## Wood as primary construction material

Since Harghita County is rich in wood source, the main aim of this policy is to encourage and promote the use of wood in constructions first of all at the level of public buildings but to enlarge it on business and household level. This successful implementation project from Harghita County we are going to expand this approach on national level in Romania. This policy approach should be taken into account at in other regions of Romania as well. 52% of Harghita County's turnover is given by forest management and wood processing. 35.6 % of the County's surface is covered by forest, 47% of these forests are owned by local forest owner associations, the rest being owned by private owners and local public authorities, churches and state. The most important lessons from this best practice is the consciousness and endurance of the local stakeholders. The policy aims to identify how forests can provide new jobs and business opportunities in order to keep rural communities alive. Beside the fact of strengthening the idea of traditional use of wood, there is a need to create new, competitive wooden products with high added value. In order to protect the local wood processing based industry the policy of County Council does not allow the establishment of international investors who would like to exploit the county's natural resources without adding high value added activity on local level. Taking into account that at this moment there isn't any big company, investor in the field of silviculture and forestry establish in the county this is already a positive impact of the policy.

## DETALJI

---

### PODRIJETLO DRVA

Šuma

### VRSTA DRVA

Deblo

### ODGOVARAJUĆA VRSTA DRVA

70-80 % is conifer

### UTJECAJ NA OKOLIŠ I BIORAZNOLIKOST

Sustainable forest management, replantation of forest controlled by local forest owner associations

### UČINAK NA PRIHOD

Positive

### POTENCIJAL ISKORISTIVOSTI

--

### SREDIŠTE

--

### GOSPODARSKI UČINAK

Positive, growth of the company / turnover 52% of the County's turnover coming from wood process

### POTREBNA POSEBNA ZNANJA

### POTENCIJAL ZA POVEĆANJE UPORABE DRVA

Approx. 1,000,000 m3, area affected 2,300 km2

### POTENCIJAL ODRŽIVOSTI - VRIJEDNOST

--

### JEDNOSTAVNOST PROVEDBE

Medium

### JEDNOSTAVNOST PROVEDBE - EVALUACIJA

--

### KLJUČNI PREDUVJETI

Long term sustainability for local economy, local value preserving

### VRSTA DOGAĐAJA NA KOJEM JE PRIKAZAN OVAJ BPI

--

### UČINAK NA ZAPOSŁJIVOST

Creating of new jobs mostly in rural area

### TROŠKOVI PROVEDBE (EURO - €)

--

Sustainable and effective forest management, efficient wood processes, long term business strategy

## VIŠE DETALJA
