

Holzkette Schwarzwald is an association of representatives of the forestry and wood industry as well as communities and individuals. Their goal is to promote the cooperation across various stages of timber products from forest owner to final consumer. Furthermore, the association is aiming to strengthen the wood sector in general, especially in the Black Forest. At present, the association has 200 members, among them 12 communities: Bonndorf, Breitnau, Eisenbach, Feldberg, Friedenweiler, Hinterzarten, Löffingen, Lenzkirch, St.Märgen, St.Peter, Titisee - Neustadt and Schluchsee. The association was established based on the EURES study "Standortinitiative Hochschwarzwald" commissioned by the municipalities of Löffingen, Lenzkirch and Titisee-Neustadt in 1996. In particular, the study highlights the importance of the wood sector to the regional labor market in the Black Forest (24% of the workforce in the Black Forest depends on wood).

Personal contact and trust is the key to improve regional networks successfully.

Every 2 years the Holzkette organizes an event called Holztage. This event always take place in a membership community in the Black Forest. Several information events and expert conventions as well as a fair take place during the Holztage.
