A system for Quality assessment of Forestry Contractors (eGozd)

The forestry services market is dynamic, requiring skilled contractors to meet demand and maintain competitiveness. However, knowledge of their efficiency, social responsibility, and environmental impact is often limited. This is especially problematic during large-scale disturbances when forest owners lack information on service providers' quality and reliability. To address this, the "MojGozdar" system was developed in Slovenia. It assesses forestry contractors on three levels: formal suitability, expert evaluation, and customer ratings. The system emphasizes sustainability, corporate social responsibility, and environmental responsibility, helping forest owners connect with reliable contractors and improving service quality through user feedback.

Più DETTAGLI

SFIDA RISOLTA

5. Migliorare le prestazioni economiche e ambientali delle filiere forestali

DOMINIO

La gestione forestale, selvicoltura, i servizi ecosistemici, resilienza

gestione dell'innovazione, mozzi digitali, cluster, sfruttamento (trasversale)

TIPO DI SOLUZIONE

strumenti di consulenza e servizi per i proprietari di foreste

PAROLE CHIAVE

Services

operations

quality of model

wood mobilization

SOLUZIONE DIGITALE

Sì

INNOVAZIONE

Sì

PAESE D'ORIGINE
