# Forest consolidation in Bavaria – a stakeholder theoretical analysis

Forest consolidation is seen as a solution instrument for the fragmentation of small private forests in Bavaria. The focus of this project: perspectives for the involved authorities, professionals, communities and forest owners. Furthermore, the establishment and development processes as well as the evaluation of the forest consolidations from the perspective of the involved stakeholders was qualitatively analyzed in thee case studies

For forest consolidations the following actions are recommended:
If possible: increased implementation of the voluntary exchange of land
Use of successful examples in structural improvement activities as role models when new forest consolidations are initiated
Keep the duration of the procedure as short as possible
Intensive cooperation of the involved authorities
Planning and implementation of the forest consolidation adjusted to the situation and with special attention on key activities

Regarding the effect of forest consolidation on the mobilization of wood the following conclusions are drawn:
The effect of forest consolidation on the size of the property is only limited
Forest consolidation can help forest owners with strong forest owner motives to manage their forests how they want to and thereby increase the use of wood and intensify marketing activities
Relationships to the forestry communication network (becoming a member of forestry associations, getting advice from forest administration) are being

intensified or created

Forest administration and forestry associations need to get connected to forest owners and support them throughout the forest consolidation to create trust

## DETALHES

### ORIGEM DA MADEIRA
Floresta

### TIPO DE MADEIRA
Tronco

### TIPO DE MADEIRA EM CAUSA
Stemwood

### IMPACTE NO AMBIENTE E BIODIVERSIDADE
Medium effect on biodiversity and forest resilience enhancement

### IMPACTE NAS RECEITAS
more efficient working processes and higher harvesting amounts

### POTENCIAL DE EXPLORAçãO
--

### HUB
--

### IMPACTE ECONOMICO
It will contribute to more efficient working processes

### CONHECIMENTOS ESPECIFICOS NECESSáRIOS
There is need for enhanced organizational but also administrative processes

### POTENCIAL DE MOBILIZAçãO
1 – 2 m³/ha

### SUSTENTABILIDADE POTENCIAL - VALOR
--

### FACILIDADE DE IMPLEMENTAçãO
Difficult as it is a complex process including many forest owners but also different authorities

### FACILIDADE DE IMPLEMENTAçãO
--

### PRE-REQUISITOS CHAVE
Forest owner data from the authorities

### TIPO DE EVENTO EM QUE ESTE BPI TEM SIDO APRESENTADO
--

### IMPACTE NO EMPREGO
Better qualified staff through verification and discussion possibilities

### CUSTOS DE IMPLEMENTAçãO (EURO - EUR)
--

## MAIS DETALHES

**DESAFIO ABORDADO**

--

**DOMíNIO**

Regime de propriedade, cooperação

**TIPO DE SOLUçãO**

--

**PALAVRAS-CHAVE**

--

**SOLUçãO DIGITAL**

Não

**INOVAçãO**

Não

**PAíS DE ORIGEM**

Alemanha

**ESCALA DE APLICAçãO**

Local

**ANO DE INíCIO E FIM**

2014 -
