

Xyloforest is a research, innovation and service platform for cultivated forest systems, products and materials. Its objective is to contribute to the adaptation of forest resources to climate change. Its scientific objective is to improve knowledge and implement innovative solutions to increase the use of wood in construction, improve wood quality and develop green chemistry. The scope covers the entire forest-wood chain: Xylomic: genomics and tree phenotyping Xylobiotech: forest biotechnologies Xylosylve: innovative silvicultural systems Xyloplate: advanced wood engineering Xylomat: Composite wood-based products and biosourced materials Xylochem: Wood chemistry and bio-refinery Xyloforest developed in 2011 following the call for projects “Equipement d'Excellence” of the future investment program (ANR-10-EQPX-16). The project is scheduled to end in 2020, and the grant received for its entire duration is €10.2 million. The aid is distributed among the various partners for the purchase of equipment. Each technical platform has a laboratory with specific equipment to host new collaborative projects. Laboratories can provide the scientific community with premises, or data and host measurement and experimental equipment. They can also contribute their experience for product and service developments (e.g. STRADIVERNIS project for the development of an industrial varnish based on rosin and vegetable oil from the Xylomat platform). The XYLOFOREST platform is a support for teaching on forests and wood with more than 130 students trained, including 57 doctoral students since 2013.

## DETALII

---

### SURSA DE LEMN

Pădure

### TIPUL DE LEMN

Lemn masiv

### POTENȚIALUL DE MOBILIZARE

High potential for mobilization (not quantified)

### POTENȚIAL DE SUSTENABILITATE - VALOARE

--

### TIPUL DE LEMN ÎN CAUZĂ

Stemwood

### FACILITATEA DE IMPLEMENTARE

Medium: purchase and use of new equipment, monitoring of devices and experiments

### IMPACTUL ASUPRA MEDIULUI ȘI BIODIVERSITĂȚII

Positive impact with equipment to assess the environmental balance of silvicultural systems (platforme Xylosylve)

### FACILITATEA DE IMPLEMENTARE - EVALUARE

--

### EFACT ASUPRA VENITURILOR

NA

### CONDIȚII CHEIE PRELABILE

NA

### POTENȚIAL DE EXPLOATARE

--

### TIPUL DE EVENIMENT LA CARE A FOST PREZENTAT ACEST IPB

--

### HUB

--

### EFACT ASUPRA LOCURILOR DE MUNCĂ

Creation of jobs related to the new activities of the laboratories and many internships and theses related to the project

### IMPACT ECONOMIC

NA

### COSTURI PENTRU IMPLEMENTARE (EURO - €)
