

# Invazivke | Web infoportal about invasive species

Public data Ordering List of non-native species Experts Find statistics Login Registration

**About the web application**  
The Invazivka web application is part of the public electronic information system for collecting data on invasive alien species (ITV), which includes a desktop, web and mobile application and connects several existing information systems that already collect data on ITV in Slovenia.

**Invitation to participate**  
Anyone can take part in reporting the findings of alien species. You are warmly invited to participate. The first step is [user registration](#). This is followed by [logging in to the web application](#).

**Mobile application**  
The free Invasive apps in [the Play Store](#) are available for portable devices running Android.

**Alien species**

**Seznam**  
[saljeto odmiranje skorje](#)  
[pooglenitev hrastov](#)  
[javorov rak](#)  
[fitofora](#)  
[borov smolasti rak](#)

**Fotografije**

**Selected species**  
[kudzu](#)  
[Pueraria montana var. lobata](#)

*The Invazivke web application is part of the public electronic information system for collecting data on invasive alien species in Slovenia.*

The mobile application Invazivke is free to use and is intended for the general public. To use the application, one must register using a valid email address. It is designed for field data collection with a smart device that includes a GPS sensor and a digital camera. This allows user to automatically capture the location (exact X and Y coordinates) and photo with the device, which greatly facilitates and speeds up data entry. The user manually selects of the species from the drop-down menu. The application also includes a manual with a description of invasive alien species (IAS), including pictorial material to facilitate the identification of the found organism. The mobile application Invazivke enables the recording of IAS finds without an internet connection. The exchange of data with the central server takes place at the request of the user when connected to the Internet and is carried out according to the synchronization process.

## VEČ PODROBNOSTI

---

### IZZIV

7. Ozaveščanje javnosti, socialna sprejemljivost in politična podpora gozdarstvu

### KLJUČNE BESEDE

mobile application  
invasive alien species

### IZVORNA DRŽAVA

Slovenija

### DOMENA

Motnje, tveganja, odziv na naravne nesreče

### DIGITALNE REŠITVE

Da

### OBSEG UPORABE

Nacionalni

### TIP REŠITVE

Podatkovna platforma, vozlišča podatkov, odprti podatki

### INOVACIJA

Da

### ZAČETNO IN KONČNO LETO

2016 -
