

# SAFERS | Structured Approaches for Forest Fire Emergencies in Resilient Societies

*SAFERS mission is to support societies becoming more resilient across the key phases of the forests fires emergency management cycle*

The project is going to create an open and integrated platform featuring a forest fire Decision Support System. The platform will use information from different sources: earth observations from Copernicus and GEOSS, fire sensors in forests, topographic data, weather forecasts and even crowdsourced data from social media and other apps that can be used by citizens and first responders to provide situational in-field information.

## MER INFORMATION

---

### UTMANING SOM ADRESSERAS

1. Förbättra skogens motståndskraft och  
anpassning till klimatförändringar

### DOMÄN

Skogsskador, risker, katastrofberedskap

### TYPE AV LÖSNING

Spårningsverktyg

### NYCKELORD

Risk maps  
preparedness actions  
early detection

### DIGITAL LÖSNING

Ja

### INNOVASION

Ja

### UPPHOVSLAND

Grekland

### POTENTIAL

kontinental

### START OCH SLUTÅR

2020 -

## KONTAKT INFORMASION
