

## A system for Quality assessment of Forestry Contractors (eGozd)

*The forestry services market is dynamic, requiring skilled contractors to meet demand and maintain competitiveness. However, knowledge of their efficiency, social responsibility, and environmental impact is often limited. This is especially problematic during large-scale disturbances when forest owners lack information on service providers' quality and reliability. To address this, the "MojGozdar" system was developed in Slovenia. It assesses forestry contractors on three levels: formal suitability, expert evaluation, and customer ratings. The system emphasizes sustainability, corporate social responsibility, and environmental responsibility, helping forest owners connect with reliable contractors and improving service quality through user feedback.*

## MER INFORMATION

---

### UTMANING SOM ADRESSERAS

5. Förbättra ekonomisk och miljömässig prestanda för skogsförsörjningskedjor

### NYCKELORD

Services  
operations  
quality of model  
wood mobilization

### UPPHOVSLAND

Slovenien

### DOMÄN

Skogsförvaltning, skogskjötsel, ekosystemtjänster  
Innovations ledning, digitala hubbar, kluster

### DIGITAL LÖSNING

Ja

### POTENTIAL

Nationell

### TYPE AV LÖSNING

Rådgivning og serviceverktyg för skogsägare

### INNOVASION

Ja

### START OCH SLUTÅR

--

## KONTAKT INFORMASION

---

### ÄGARE ELLER FÖRFATTARE

Slovenian Forestry Institute

gteinfo@gozdis.si

### RAPPORTÖR

Amina Gačo
