ADELI (association for a balanced development of the forest in Limousin)

Adeli is an interprofessional association whose objective is to bring together neighbouring private owners in order to set up sufficient site units to trigger stand improvement operations and equipment work (storage area, wood loading area). Adeli's technicians, partly financed by the region, help to define the appropriate silvicultural interventions, constitute grouping files and carry out site receptions. Thanks to this animation, the stands are put back into management with dynamic silviculture that will eventually produce quality wood.

Thanks to Adeli, the overheads and prospecting costs of economic operators are reduced. Cost implementation of volumes mobilized is 3-4 € m3 depending on the files.

To initiate a grouped site, it is necessary at least 3 owners, for a site surface of at least 8 ha (4h for hardwoods), within a radius of 2km. Owners and operators must commit to a sustainable management certification system and pay membership fees: €25/year and €250/year respectively.
Once the grouping is completed, aid is provided by the region for owners ranging from 200 € to 500 €/ha for stand improvement. For aid for the creation of equipment, the maximum aid before tax is € 6500.
The sites implemented by ADELI mobilize 650 ha of stands every year, 50% of which are deciduous for a wood volume of 45,000 to 50,000 m3.
