

# Machinery ring Bled

Machinery ring is a social organization that offers support services for farmers and forest owners. It is a form of the use of machines between farms based on mutual neighborly assistance. Members of a machinery ring are owners of agricultural and/or forestry machinery and they can also provide services to other members at prices agreed. The machinery ring ensures coordination and dialogue between service providers and users.

Experience of the first years of operation show good results. The amount of work increases year by year. Forest owners are provided with a comprehensive service, from harvesting forest trees to selling timber, processing residues in wood chips and selling chips. They are able to achieve better prices at market. The machinery ring is a good and innovative example of linking forest owners, which by increasing efficiency and professionalism enables increased mobilization of wood from private forests, better silviculture of these forests and higher returns for individual owners.

Forest owners have access to high-quality hardware that cannot be afforded by individual owners. The machinery ring also provides expert advice and the purchase and sale of wood, including biomass for heating, and agricultural services. In the framework of the machinery ring, the training of owners for work in the forest and professional excursions are organized in cooperation with the Forest Service. The members also receive various discounts when purchasing forestry equipment. To make better use of machinery and work on a larger scale, they set up a limited liability company SK Servis, which deals with felling, harvesting and sale of wood, the production and sale of wood chips and the construction and maintenance of skid roads.

## DETALJER

---

### VEDENS URSPRUNG

Skog

### TRÄTYP

Rundvirke

### TYP AV TRÄ

Stemwood, waste wood

### PÅVERKAN PÅ MILJÖ & BIOLOGISK MÅNGFALD

Enhancement of forest resilience

### EKONOMISK EFFEKT

More efficient working processes / Reduction of costs related to the machinery

### KOMMERSIELL POTENTIAL

--

### NAV

--

### EKONOMISK PÅVERKAN

Enhancement of regionally added value / more efficient working processes /

### SPECIFIKA KUNSKAPSBEHOV

### MOBILISERINGSPOTENTIAL

110.000 m<sup>3</sup>/year

### HÅLLBARHETS POTENTIAL - VÄRDE

--

### ENKEL IMPLEMENTERING

Medium

### ENKEL IMPLEMENTERING - UTVÄRDERING

--

### NYCKEL FÖRUTSÄTTNINGAR

High-quality hardware; reliability of the service; information on the prices of hiring the machinery, efficient coordination between service providers and users

### TYP AV EVENEMANG DÄR DENNA BPI HAR PRESENTERATS

--

### EFFEKT ANTAL ANSTÄLLDA

New employments / Better qualified staff

### KOSTNADER FÖR IMPLEMENTERING (EURO - €)
